Moshe Mizrachi, CDT

There has been a “well kept secret” in dentistry for many years: Indirect composite restorations. This “secret” is possibly the single best solution to the challenge we face in patient acceptance. In today’s world of “micro-invasive dentistry” and “No-Prep veneers”, indirect composite delivers a restoration that is ultra thin and is fabricated to an exact finished contour, eliminating burdensome finishing time and decreasing chair time significantly, allowing the clinician to pass along savings to the patient. It is amazing that to this day, so few dentists utilize a material that has been tested and proven for more than two decades. In this lecture / hands-on course, techniques will be discussed using Pearlfect Smile, a comprehensive system that delivers an exquisite and predictable cosmetic result in a fraction of the time that it takes to deliver conventional veneers. The use of “Pearlfect Smile” for full coverage crowns, inlays, and onlays will also be discussed and demonstrated. This course will offer you and your patients a wonderfully aesthetic and time-tested technology that can be offered often at a significant cost savings to both the doctor and patient!

Each course participant will learn:

- 1) Case planning and “no cord” impression techniques for “Pearlfect Veneers”
- 2) The material science of minimally invasive dentistry
- 3) The use of soft tissue lasers to enhance gingival contour and aesthetics
- 4) Delivery and cementation techniques for indirect composite restorations.
- 5) Occlusal adjustment and polishing protocols.
- 6) How to seamlessly repair “Pearlfect restorations” when needed.
- 7) Preparation for full coverage, inlays, and onlays using the “Pearlfect” system.
- 8) Marketing “Pearlfect” restorations in your practice.

Learn techniques in this information filled one day lecture / hands-on course that will increase your level of aesthetic success in your practice tomorrow!

Dates:

Tuesday, July 17, 2012
8:00 am – 5:00 pm

Location:

[Columbus Institute of Cosmetic Dentistry](#)
1587 Brice Rd.
Reynoldsburg, OH 43068

Tuition:

Doctor - \$595 Team - \$295
(includes lunch)
